

To whom it may concern,

Please accept this as my written disapproval of Measure 110. Look at our downtown area. American Airlines no longer puts their crews up downtown because of the homeless situation. I walk down the street with my daughter and witness people defecating, shooting up, and high on who knows what. This is not ok. We are the laughing stock of the country. I do not feel safe and I cannot wait to leave this dying city because of the enabling of people to do drugs, garbage abounding, tents everywhere, no bathrooms and live like in a 3rd world country. Do better!!!!
