

To State lawmakers,

BM 110 is a deeply flawed measure based on extreme politics and ideology and has no published social or medical science background. Organization that drafted and financed BM110 is an out of state lobby using Oregonians as their laboratory animals. Referenced social and medical experiments in Europe have zero relevance here as the European societies are vastly different than the American society and there is no reason to believe that they will ever converge. I agree with the People for Portland positions and ask you to

- Make possession of lethal drugs like fentanyl, heroin, and meth a misdemeanor crime again.
- Give law enforcement tools to steer addicts toward mandatory treatment and away from jail.
- Prioritize diversion programs that put drug users on the path to recovery and a clean criminal record.
- Increase penalties for drug dealing and public drug use.
- Take legislative action in February – people are dying each day under Measure 110

Thank you  
Respectfully

Peter Mollenholt MD, PhD
