

Our Elected Representatives:

Thank you for taking up this issue during this short session. It deserves the priority. My place of work has been inside the border of Old Town since 1995. I can tell you that conditions have drastically deteriorated since the implementation of BM 110. Drug use and trafficking are rampant resulting in increased violent and property crimes and a much poorer quality of life for all. Businesses are relocating and property values are dropping. It does not have to be this way. You can make a positive change. I implore you to fix or repeal BM110 immediately, before there is nobody left here except the mentally ill, the addicted, the dealers and their advocates.

Sincerely,

John Bishop
