

I am urging law makers to make the possession of lethal drugs like fentanyl, heroin and meth a misdemeanor crime again. The Measure 110 is NOT working...it is attracting drug users to flock to PDX, increase our crime rates, threaten the safety of our children (actually everyone...including myself who had a drugged out person approach me with a knife and another person went after my 34 year old daughter as she walked home from work).

We need to provide law enforcement with the right tools, increase the number of social workers, enforce mandatory treatment and increase the penalties for drug dealing and public usage.

As someone who pays property taxes, business taxes and income taxes I am FED up with what is going on...and if it does change, I will move out of this state. I am fed up with the lack of discipline in our laws, enforcement and legal system.

IT is time to lead ...change the law and protect our city.

Bobbie Parisi

A tax payer who is fed up.
