

Hello,

I am writing to urge repeal of Measure 110, we can debate the theory of drug decriminalization but its obvious to anyone looking around that this measure has made some of Oregon's biggest problems even worse: addiction and overdoses, homelessness, mental health, and public safety. Sadly, rampant public drug use is now part of Portland's daily life and national reputation. What is most galling is that Oregon is treated as a laboratory for testing drug decriminalization by out of state organizations and funding, why do we put up with this when we have to live thru the experiment seeing it failing around us!

Please repeal Measure 110, it's literally a matter of life and death for individuals and perhaps our cities and state.

Mark Atherton
