

Hello,

I am Board Chair of the HOA at Roosevelt Condominiums in downtown Portland. Our building shares a block with a park, called Shemanski Park of the South Park Blocks, which has of late become a de facto open air drug market. Most evenings, three young hooded men are stationed on the sidewalk handing off drugs to passers by. Dozens of people congregate in the park using drugs and lighting fires.

Oftentimes, people have been taking their drugs to the covered front entrance of our apartment building. They block the front door, refuse to leave, use drugs, and leave all the needles and foil scraps littered about our front door.

This is happening right now. We cannot wait for changes to Measure 110. We need an expedited reversal of this colossal legislative mistake which the public is deeply, painfully regretting.

Make drugs illegal again. Increase penalties for drug dealing. Allow mandatory recovery programs and involuntary admission to in patient facilities.

Sincerely,
Jared Boe
