

Recall Measure 110 for meth, heroin, Fentanyl, they are destroying everyone and everything

This morning I walked through a memorial for 15 year old boy who died from Fentanyl.

A 2 year old died from fentanyl.

<https://www.fox13seattle.com/news/dad-charged-after-child-dies-of-fentanyl-overdose-m-e-says-its-the-most-pills-shes-ever-seen-in-a-child>

These drugs damage the users and the community to such an extent, that society is failing.

Please recall these drugs. The best and most compassionate place for these users is jail. If they are on the streets, they die, and wreck society with them.

If they use Fentanyl more than 3X, they are hooked for life. Show compassion for everyone, recall measure 110. Put the money back to schools.

Measure 110 has been a failure for everyone. More deaths, more chaos, more destruction, more people leaving the state. I didn't vote for it, I could predict this would happen. Any reasonable person could.

More Fentanyl users and addicts come to Oregon, and our state is imploding as a result.

Undo this terrible costly mistake.

Get all addicts off the streets and into either jail or treatment facilities. This drug is so powerful, people cannot stop.
