

As anyone can clearly see that BM 110 needs to be reversed. Drug possession of fentanyl , meth, heroin, cocaine shld be felonies. These are deadly drugs an by decriminalizing them it perpetuates their usage an addiction an in turn homelessness. To allow usage of these drugs in public places has destroyed a once lovely city. It has also killed tourism, conventions, a small businesses.

BM 110 was one of the worst measures ever passed. Let's try a rectify the havoc it caused a bring back the beautiful , safe city that Portland used to be .
