

People should be treated with respect and dignity, but Measure 110 does neither of these things. Individuals struggle on the streets with their addiction. There is no way forward for them and no way for us to lift them up. The result is that we are all being dragged down into a Portland and Oregon that none of us recognize. Those that suffer from addiction do not get the help they need and those of us watch helplessly as our community turns into a cesspool.

We must repeal or modify Measure 110 to enable compassionate law enforcement to steer addicts toward mandatory treatment. We must get drugs off our streets and out of our neighborhoods. Provide more treatment, but put more teeth into requiring it to receive services.

Save our City, our State, our community, and those suffering from addiction.

Thank you,

Lori Holmes
