

Hello,

I have a cousin who has fallen into the horrible grip of fentanyl. He has been arrested and released over 10 times in the past two years for drug possessions, possession of a firearm and even more. The one thing our family wants is for him to be held accountable for his actions. We want him to have to serve time for the laws he's broken, to have a space to get clean, treatment and support. He has 4 children he's left in the wake of his addiction and measure 110 has enabled him every step of the way.

Repeal now!
