

I am a resident in Portland Oregon. Please help repeal OR majorly overhaul M110 ASAP, and provide housing to be able to ban street camping. I am a liberal voting person, but since this measure passed, the haphazard implementation has impacted my everyday life and safety, to the point of changing my affiliation to republican and voting this out.

- I used to take MAX to work and regularly use it as part of transportation, but with zombied people on the trains/ stations and potential to be hit by someone carrying a golf putter with no one to call for help for my safety, I have stopped using MAX
- We bought a home in North Portland and still have doubts (of having invested in Portland/ Oregon) for our safety as thefts (and trespassing) are a regular occurrence. There is an ever present Campers/ RVs on our block constantly high on drugs yelling, tossing items. Even after calling 311 for months there is NO response. If this is acceptable from the city, then I'd like to withdraw from paying local taxes, atleast I can use that money to increase security on my block and buy a gun for myself (even though owning guns is something I detest)
- the list goes one!

Not forcing folks into mental health system is understandable, but allowing the same mentally ill people to continue to wreck havoc on our streets, threatening and physically hurting tax paying citizens is unacceptable and should be held accountable via the justice system and NOT let out the same day after booking them the same day?!

Thank you!
