

Hello, im wiring to give my opinion on measure 110.

Im a business owner in the city and i strongly feel measure 110 has had a negative impact on our city and i would like to revoked.

Im all for trying things out, i actually voted for it originally, but when we try things and see a negative impact i think we should be responsible, admit it didnt work, and fix it.

I believe revoking measure 110 would have a positive impact on our city, when more people are dying then ever from drugs, i dont believe making the city a more drug friendly place is an appropriate answer.

Thank you for your time.
