

To Whom It May Concern:

I am writing to voice my concern about Oregon Ballot Measure 110 and voice my support for its repeal as we continue to see the negative effects of this change in the law. I didn't initially support this measure but was open minded to the possibility that it could be beneficial in some ways, however, seeing the rampant increase in drug use, overdoses and homelessness in Oregon since its approval have made it clear that this was a mistake and that a repeal is in order to enforce drug use and protect our communities.

Thank you,
