

I would like to express my concern with measure 110. Portland has become an unsafe city since the measure passed. Portland used to be a clean and safe city and with a low crime rate, I have personally experienced crime against me, my car has been stolen 4 different times lucky I was able to recover it but that made me feel violated and unsafe. I work hard to be able to buy my vehicle and to have it stolen made it financially difficult. It's not fair for hardworking taxpayers having to put up with the unnecessary and unsafe environment that's measure 110 has caused on hardworking taxpayers.
