

My name is Heather,

I was born and raised in Portland. I am a hairstylist and my husband is a Portland fire fighter. The deterioration of a once beautiful safe CLEAN city no longer exists. I see people using drugs regularly in the open .It was like a light switch. One day every drug seeker in the country has come to portland. It has become a Mecca for drug seekers . The homeless situation is out of control . I had to close up my shop because it was no longer safe for me to walk to my car after a long day in the salon . The call volume for my firefighter husband has increased . He comes home tired stressed with not much left for our family. We had a family friend whom was laid off work . He would have been 51 , Overdosed on fentanyl this past summer .Its so incredibly obvious that this measure created more harm than good. The quality of life for everyone that lives and works in Portland has gone down hill. Especially the people have died or been victimized due to these policies. PLEASE repeal measure 110 . This has failed miserably. Our tax dollars are being thrown away. HELP portland is dying.
