What do you want to tell legislators about the proposed \$1.9 Billion Rose Quarter Freeway Expansion and Oregon's transportation system?

We cannot continue the shameful Portland history of tearing down neighborhoods and green spaces for the sake of car convenience. People opt to drive because they don't have other convenient modes of transportation. Please use your available funding to invest in existing infrastructure and more options for transit that reduce fossil fuel emissions. There should be a thorough EIS of this proposal, especially in regards to the impact on air quality.
