**What do you want to tell legislators about the proposed \$1.9 Billion Rose Quarter Freeway Expansion and Oregon's transportation system?**

I am testifying that we need an environmental impact statement. I believe that this expansion will have a terrible impact on our air and on the people living close to the freeway.

We should be investing in infrastructure that supports biking and public transit not wider freeways. We must move towards transportation that doesn't poison our air and water and mining for electric vehicles is also destructive to our environment. We must move towards moving people in ways that are less harmful to the climate. It is essential if we are to survive.

Thank you,  
Alice West
