Claire L. Stock

What do you want to tell legislators about the proposed \$1.9 Billion Rose Quarter Freeway Expansion and Oregon's transportation system?

Perhaps if we weren't in the midst of the Race for Our Lives and living in the era of a Climate Catastrophe with temperature rising, and multiple storms, rising sea levels, dying insects and other living beings, fires and excessive heat and a predicted 1 billion climate refugees, I might think that relieving congestion would make sense. But due to the above listed circumstances, I cannot support the Freeway Expansion. Are we, as human beings able to see where we are and make the right decision??
