

BM-110 has caused chaos in Portland, killed countless people, and damaged the brand of both Portland and Oregon. Portland used to be a fantastic city with character, but now it's riddled with homelessness, public drug use, mental health crises, graffiti, and crime. I used to be proud to tell people I was from Portland. Now I'm ashamed of it and when I mention it to people I get looks of concern and those eyes that seem to say, "I'm sorry."

BM-110 has contributed to the deterioration of the city and it must be fixed. Public drug use must not be allowed, people need more treatment opportunities, and we need to take back our streets! As a state, we need to take legislative action to fix BM-110! The reputation of our state and city are dependent on it!
