

Enough on drugs and crime!

Put our cities, towns, children, parks, schools, businesses, streets and us, the people of Oregon FIRST!
We are done tolerating open drug use, routine crime and vandalism that has become the disgusting state of our cities and communities. My businesses are being destroyed, our homes are being damaged and vandalized routinely and you can't leave your car parked without in being broken into routinely.

The legalization of drug use and the routine crime that comes with it stops NOW!
