What do you want to tell legislators about the proposed \$1.9 Billion Rose Quarter Freeway Expansion and Oregon's transportation system?

There is a saying "if you build it, they will come". Time and Time again, freeways get expanded and MORE cars come. We are in the midst of a climate crisis as well as already crumbling infrastructure. The freeway expansion is not only short-sighted, but will lead to more cars, more congestion, and less safety. Please conduct an EIS an to get a better handle on how this expansion will impact the residents of the Rose Quarter.
