What do you want to tell legislators about the proposed \$1.9 Billion Rose Quarter Freeway Expansion and Oregon's transportation system?

Please require ODOT to do a full EIS for the Rose Quarter Freeway Expansion. Everytime there is a new story about this project it becomes bigger, and looks more like ODOT has misrepresented their intentions for the entire time. This is a large freeway expansion at a time when money needs to be reprioritize to fund mass transit that is good enough for people who rely on cars to actually use. This boondoggle project takes money away from fixing existing infrastructure and making it safer for walking and biking. It feels like the impetus of this project was to create jobs. That's important, but, use it to fix what we have, make it safer, and prepare for climate change and prepare for fewer cars in the future.

Thank you,
Dave Shaut
