What do you want to tell legislators about the proposed \$1.9 Billion Rose Quarter Freeway Expansion and Oregon's transportation system?

I want ODOT to conduct an Environmental Impact Study because adding freeway lanes is environmentally disastrous. Legislators on the Joint Special Subcommittee on Transportation Planning should be investing in proven regional mobility options such as trains and buses. I cannot get from SW Portland to NE Portland in less than an hour by public transit, and expanding the Rose Quarter will not make that trip any faster.

No freeway expansion has ever solved traffic congestion.
