What do you want to tell legislators about the proposed \$1.9 Billion Rose Quarter Freeway Expansion and Oregon's transportation system?

Why build a city that is more focused on big metal boxes using fossil fuels, than the comfortability and community of its people? I've lived in Portland all my life and the culture here is alienating and lonely. It is clear the city pretends to care and so it's residents have developed the same attitude. As humans we will only survive the climate desolation together. Do not separate us with a ten lane freeway.
