

To whom it may concern,

I am a native Oregonian, one of the very few born and raised here in Portland. A graduate of University of Oregon. I am appalled and perplexed on the decisions being made by our government. I have a business in downtown Portland that has been there for 30 years. The increase in addiction and drug problems since measure 110 was passed has made it detrimental to the livelihood of the city of Portland, and the state of Oregon. I am pleading to our leaders to overturn measure 110. The drug dealers are the only people benefiting from measure 110.

Oregon went from being one of the most prosperous, safe states to an infestation of drugs.

We need to take back control of our state. This is absolutely ludicrous.
