

Passed during a time when the electorate was pre occupied with the Covid 19 virus.

The measure was a literal stab in the dark at solving a complex problem. After it's obvious failure to solve a huge social problem we now know that it exacerbated it.

Bad legislation can result from approval by voters. If this measure was placed on the ballot today it would fail by a far greater margin. Why? Because the facts of its disastrous results are with us. This measure should be overturned in its entirety.
