

I write to you both as a private citizen and a public servant in social services. Measure 110 continues to increase harm to all without any follow-through of the mandates to assistance those using and abusing drugs.

Measure 110 continues to exhaust emergency and first responder resources, limiting and in most situations eliminating resources for citizens who require them outside drug use/abuse.

Measure 110 and the Oversight and Accountability Council failed Oregonians and lacked any stewardship of taxpayer's funds. Existing agencies and organizations who accepted grants should be ashamed and held accountable by Oregon Legislature. Inhumanity , increased crime, and senseless deaths are on your hands. Act and govern now!

Cindy Schmidt
