

Measure 110 is not working. Overdose deaths have increased, crime has increased, homelessness has increased.

Enabling substance users with endless supply of Narcan to revive them from an overdose & giving them foil and spoons to continue drug use is only exacerbating the problem. Drug dealers and out of state users come to Oregon where possession of NOT small quantities of illicit drugs is allowed. Oregon is NORMALIZING substance use and not helping people get into recovery.

I've talked to the homeless who use illicit drugs don't want housing because they don't want to be clean of drugs. They prefer the freedom and available resources.

The court system actually worked in getting people into treatment.

Sincerely,  
Kelly Sloop
