

Hello,

I live in Oregon. I travel a lot. It's not like this other places. 3rd world countries are cleaner than here, and if they are dirty...at least it's not the walking dead everywhere.

I can't even walk my dog without being on high alert she doesn't gobble up fentanyl, she's 7lbs. That could be fatal.

No one will get better without consequences.

Also- I'm sick of living around a bunch of drug addicts! I choose to work hard, and take care of my life, it's people like us that have to put with this crap.

Thank you for your time. I didn't bother to be eloquent in my delivery, as we are talking about some real ugly things.

Fix it please. 🙏

Kind Regards,
Mindy Landry
