

TO: Measure 110 Legislative Committee

RE: The Measure 110 Debacle

I am a politically active registered voter in Bend, Oregon. I think, act and vote in a non-partisan way. That said, I am totally frustrated by the lack of inaction by our State representatives! It is time for our legislature to recognize the nature and scope of the serious challenges faced by the public, our criminal justice system (police & courts) and persons with addiction issues, as a result Measure 110.

It's time to correct the Measure 110 debacle; now, not 6 months from now. Specifically, I ask that the legislature repeal Measure 110 and replace this failed experiment with laws that will improve public safety (a basic tenet of government) and force those with addiction issues to obtain help or face going to jail.

Jeff Conrad
