

I really want to love Portland again, but am considering moving out of the city. The city will never be clean until we address some of the root causes of the decline. Please repeal 110 - we can no longer turn a blind eye to open drug use in our city.

I wholly support the following actions:

- Make possession of lethal drugs like fentanyl, heroin, and meth a misdemeanor crime again.
- Give law enforcement tools to steer addicts toward mandatory treatment and away from jail.
- Prioritize diversion programs that put drug users on the path to recovery and a clean criminal record.
- Increase penalties for drug dealing and public drug use.
- Take legislative action in February – people are dying each day under Measure 110.

A trip to Portugal with what feels like an obscene number of representatives for the job seemingly paid for primarily by the Health Justice Recovery Alliance who is far from a neutral party is not going to solve what ails this city. Enough. Take action that matters.

Thank you in advance for your consideration.
