

There are sure some issues with 110 but the \$ is finally hitting our communities and doing some good here in La Grande. Fix the problems don't take away what is finally working. Give the police more legal means to arrest and deal with drug dealers, stop the public use but don't start over. Keep the new programs going, treatment and facilities. Don't hit the party lines and negate what is working, that will take years again.....This is beginning to do some good.....

Maxine Hines, active in our community with homeless, addictions services, food, families, etc.
