

Please consider the toll the repercussions this legislation has had on the seniors in our community. I have many elderly friends who are being confronted by theft, trespass and intimidation by drug addicted vagrants.

I live in Klamath County in a rural neighborhood. Even here we have experienced problems with the above issues. We have had gas stolen, our vehicles ransacked and people trespassing on our property. Some seniors are afraid to report illicit activities for fear of repercussions from the people who are invading our neighborhoods.

Thank you,
Linda Dill
Klamath County
