

Dear Co-chairs Lieber and Kropf and Members of the Committee:

Oregonians deserve real healing, real safety, and real solutions to drug addiction and overdose deaths. Our leaders must do more to address the crisis in our communities, but regressing back to failed drug war policies is not the answer.

Criminalizing addiction only makes things worse. We need to continue to pour resources into our communities to actually help them get stable and clean. How can you expect people to get clean and stable when they live on the streets. Giving someone a record doesn't help them get steady income & housing. They need care, community & culturally specific resources. Housing, and staff that doesn't degrade them. They are just trying to survive. You cannot recriminalize drugs - it will only make this situation that much worse. Please fight for what your constituents need.

Criminal penalties for people suffering from addiction disproportionately jails Black and Brown Oregonians and hurts people who are struggling. Courts are not qualified to determine whether or not a person needs drug treatment, nor should we force people into treatment when they are not ready to be successful in their recovery.

We deserve real solutions. Oregonians need housing, drug treatment, and mental health care -- and the needs are urgent. We must expand services so that people who want mental health and drug treatment can get it, and we need to reduce waiting lists and lines for detox services.

Handcuffs and jail cells cannot solve behavioral and public health problems like mental illness, homelessness, or addiction. I urge the committee to focus on helping our communities with real solutions that help people heal.

Sincerely,

Shea Weiner
