

To whom it may concern

Measure 110 is one of the dumbest things you democrats have done. Not the dumbest though because you continually put do yourselves with dumb stuff.

Who in their right mind thought this crap would be a good idea? What gets me is for my whole life it all was illegal and the justice system would prosecute crime. Now we get you communist libtards in office that literally are trying to destroy this country and the American people. Let's make hell on earth and let all the criminals go free and let them do all the drugs they want. Sound like a great plan!

This measure should have never been put into effect! Repeal it NOW!
