

Nothing good has come from measure 110. Nothing. It is frightening to see open air drug use all over our once beautiful city. Since measures 110 has passed, graffiti and crime that has exploded all over the city. There are needles and trash all over the place is the ugliest visual reminder of how drugs are evil. No other state has passed a law like this because it is ludicrous and it has only hurt people. Is this what you want Oregon to stand for? I do not. I did not vote for this law and it is not working. Make Oregon safe again, repeal measure 110.
