

Both my husband (Mike) and do **NOT** support BM 110. It has caused drastic devastation and deaths in Portland and Multnomah County.

Please do the right thing: fix BM 110 and make it a crime to use/have in possession lethal drugs. This will give our law enforcement the support needed to get “users” into treatment and off the streets. Drug treatment should be MANDATORY not voluntary. An individual high on lethal drugs CANNOT make an informed decision to get into treatment.

Thank you for doing what is best for the city and the drug users.
