

Dear lawmakers: Please take some quality time and reverse this miserable law passed just a few short years ago.

1. Our first responders are spending WAY TOO MUCH time rescuing drug users from their free for all appetite.
2. Oregon and especially Portland have become a Mecca for dopers across the country to show up here for "the free stuff" and no laws against personal and community drug abuse.
3. Me 33 year nephew died a year ago from a drug overdose.
4. My 31 year old next door neighbor just died three weeks ago from fentanyl overdose.
5. It is nuts for hard drugs to be legal; making many of our zip codes unlivable.

Do your jobs and make your tax payers your priority.

Hope for best regards, Darrell Hungerford, zip code 97217 for 40 years.
