

I hope you lawmakers reverse this failed law that is destroying our cities in Oregon. You certainly must know that nearly twice as many people hve died in Oregon between 2019 and 2022! What are you waiting for? This law will eventually make our largest city, Portland, another San Francisco with record numbers of mentally ill drug addicts roaming the streets, defecating, and making it unsafe for the regular tax paying public while forcing even more businesses to close their doors than ever before. Please read my commentary out loud in your assembly.

Thank you,  
Tim Foster
