

One thing I know for sure....if you make it too easy for drug addicted people to have drugs, you are inviting every addicted person to move here and live on our streets.

I have no idea whose idea this was but making drugs legal is not on the right track. Get it together Portland. Protect our children and clean up this town. No more excuses. Take action now. Not after you discuss it another 2 or so years. Getting so tired of a government that is useless. I saw what was probably a 16-17 year old on the bus who hung his head down and let his nose drip continuously and messed his pants. How can you allow the children of Portland to ride home from school with people like that. TAKE ACTION before it's too late. Rise up and govern.

Sincerely,
Phyllis Mahoney
