

Our city is ruin and is embarrassing. We use to be the darling of the West Coast! Now look at us!

People are fleeing , our city is not growing and the entire country is afraid to visit .

Get your head out of the sand!

We need to act fast to clean up trash, graffiti, and drug paraphernalia; reduce public disorder, public use, and criminal activity; get people off the streets and into treatment; and do everything we possibly can to prevent addiction.
