

Took my family to our beloved Destination city after 110 was in full effect, and had an addict blowing his tin foil smoke towards my family and I while walking down the sidewalk.

They don't spend money, they just steal. Your tourism is what drives your economy. Or at least used to.

Lock all of them up. No "compassion" and zero fucks given about "their plight". They are a blight. As evidenced by businesses fleeing Portland in droves due to unsustainable theft and drug induced vandalism.

For anybody reading this, please stop ANY and ALL funding towards these money grubbing "recovery" that do nothing. If they worked, this problem would have been solved.

Divert all funding from these programs to law enforcement to lock up and punish these addicts. Get rid of your communist DA that lets all criminals out to cause chaos in society, JUST LIKE THE COMMUNISTS DID in russia before taking full power. They did this in order to create chaos in society so the people would look for a savior.

Sound Familiar?
