

Please repeal BM 110 and criminalize illegal drugs like heroine and fentanyl again.

Since inception of BM 110 the city of Portland has quickly become a filthy, drug infested, unsafe place to reside. Crime is at an all time high. addicts walk the streets, openly shooting up in public places, making Portland a non desirable city to live in. As a resident who has lived here my entire life I have never witnessed such a widespread failing of our city government to allow our beautiful city to fall into such decline. Drug use in Portland has become epidemic, BM110 has created more addicts by making hard drugs legal and therefore more assessable.

Please repeal BM110 and help us take back our beautiful city.

Thank you,

Sincerely,

Mary McMenamin
