

Hello,

When measure 110 came for a vote in Oregon I knew it would be a bad idea so I voted no. The measure has proved far worse than I could have imagined. It is a failure for everyone to see, and unfortunately experience.

Please put some common sense perimeters around this awful measure. No public drug use. Treatment not an option. Jail time as a last resort and the result of a person's repeated poor choices.

Hopefully, measure 110 will be repealed by the public since they have had a chance to experience it first hand.

Sincerely,
Connor Irvine
