

Dear legislators,

I am a devoted Oregon Democratic voter and I believe ballot measure 110 was a terrible mistake! Please make changes to this ballot measure so that law-enforcement again can combat the terrible drug addiction/use that is plaguing Portland. I live in Irvington neighborhood in Portland and i see strung out people on our streets daily, my car is rifled through constantly, our local convenience store has been broken into repeatedly, NE. Sandy Blvd., retail shops have closed or been pledged with regular shoplifting and harassment. Our local librarians have to be on alert to drug overdose. My young adult children have lost friends to overdose. Mandatory treatment needs to be reinstated and widely available.

The quality of life in Portland has diminished under this ballot measure, and we need it fixed!

Thank you for your attention and your service,

Susan Crabtree
