

Since 1960 I have lived in Oregon. In all of these years I have never seen our State in such shambles. One reason that I think is important to note is the legalization of drugs in Oregon. I am against it and it has not helped any one who suffers from drug addiction. I sincerely hope those in charge of BM 110 can open their eyes to the health crisis this has caused and the violence it brings to our cities.

Thank you,

Karen Calcagno
