

Please please please repeal 110. Its an obvious disaster! Just look at our streets and all the crime. I'm a recovery alcoholic/addict. And have been working with people in recovery for over 30 years. Most people NEED consequences. I could tell you countless real life stories of people who got in recovery because of legal consequences. Very few can make a change in their lives without it. Bring drug court back. Please!!!! Do the right thing! Check your motives. What you have been doing is NOT working! It seems that the legislatures really don't want to help people get help. Y'all need to go to Alanon. Quit enabling. Its killing people. And your wasting our tax dollars. Put it where it will really help people.
