

Please fix measure 110. It has ruined the city of Portland by allowing people to openly use drugs. This law has drawn addicts from all the other states, and now they are the ones illegally camping, stealing and defacing every square inch of the area. They have ruined the quality of life in this city and have negatively impacted everyone, especially children.

Please make possession of and open use of drugs illegal and grant the authorities power to enforce addicts to get treatment or face punishment. It's time to get tough with these cronic offenders.

Signed, Josephine Yett
