

Not only is it MORALLY wrong to allow immediate life threatening drugs to flow freely thru the drug trade, but youve empowered criminals to expand their grips on the destruction of America from within.AND what about the effects it has on the rest of society??? Homelessness, theft, assaults, suicides& overdoses,car accidents.You dont have stats on that do you? Voters are Naive when it comes to understanding the future impact of decriminalizing drugs.Its just one step short of legalizing drugs in the minds of users producers and distributors.
