

Oregon communities need more treatment facilities, and detox and stabilization units. Measure 110 shouldn't be the whipping boy for the increased drug abuse and homelessness in our state. Those are nation-wide problems, and Measure 110 is helping solve those problems in Oregon. Drug abuse is a healthcare issue, not something that can be solved in the judicial system.

Please. Keep Measure 110 intact, and give it opportunities to achieve even more success than it already has.

Sincerely,  
David Michael Smith
